Thanjavur

OBJECTIVE

To build strong technical skills in cyber security, AI, and software development while contributing to real- world projects and continuous learning.

PROJECTS

AI-Based Traffic Sign Recognition

Domain: Artificial Intelligence, Computer Vision

- Built a system using Python, OpenCV, and CNN to detect and classify traffic signs from images for intelligent transportation applications.

Full Stack Web Application

Supabase, Vercel | Domain: Web Application Development

- Developed a full-stack web application using Supabase and Vercel with responsive UI and backend integration.

TECHNICAL SKILLS

Programming: Python, C (Intermediate), Java (Basics)

Cyber Security: Cyber Security Fundamentals, Network Security Basics, Security Tools Basics

Database: SQL

AI/ M L: Machine Learning Basics, Computer Vision Fundamentals

CERTIFICATIONS

- **Introduction to Cyber Security** - SWAYAM (NPTEL) - Completed with 84 %
- **Claude Training Series:** Claude , Claude Code , Claude in Action, Claude Coworker

EDUCATION

B.E CSE (Cyber Security) - J.J College of Engineering and Technology CGPA:7.98	2023 - Present
--	----------------

HSC - Thamarai International School, Thanjavur Percentage: 69.6%	2022 - 2023
--	-------------

SSLC - Thamarai International School, Thanjavur Percentage: 74.8 %	2020 - 2021
--	-------------

TRICHY

PROFESSIONAL SUMMARY

Enthusiastic Electronics and Communication Engineering student with a passion for technology, software development, and creating meaningful user experiences. Skilled in Java, SQL, Power BI, Manual Testing, and UI/UX design using figma, with a growing interest in Automation Testing. I enjoy learning new technologies, solving problems, and building user-friendly applications that make a real impact. A quick learner and team player who is eager to enhance software quality and contribute innovative ideas in the IT industry.

SKILLS

- JAVA
- UX/UI DESIGNING USING FIGMA
- Manual testing
- Automation testing
- SQL
- POWER BI

PROJECTS

GREENIQ MAESTRO

PLAYED TEAMLEAD ROLE

Developed GreenIQ Maestro, an IoT-based smart farming platform for real-time soil monitoring, crop recommendations, and smart irrigation using weather data analytics.

BANKING SYSTEM

Played The Role Of Team Player And Project Presenter

Built a Java-based Banking System application with features including account management, deposits, withdrawals, balance tracking, and FD/RD banking services.

Smart Parking System (Testing)

Performed manual and automation testing for a Smart Parking System, validating features such as slot booking, payment processing, time extension, parking history, and alert notifications.

CERTIFICATES AND TRAININGS

- Complete SQL Bootcamp - UDEMY(MySQL, Queries, Joins)
- Java Training Program - 2 Months
- Quality Assurance Training - 3 Months (Manual Testing, Test Cases, Bug Reporting)
- claude 101 .AI Fluency,Framework And Foundations,claude cowork

EDUCATION

J.J.College Of Engineering And Technology(2023-Present)

Bachelor Of Engineering(B.E) In Electronics And Communication Engineering
pursuing with 7.97 CGPA

St.Little Flower Matric Higher Secondary School(2022-2023)

Higher secondary Certificate(HSC)

Completed with 75.5%

St.Little Flower Metric.Hr.Sec School(2020-2021)

Secondary School Leaving Certificate(SSLC)

Completed with 75%

SUMMARY

Motivated and enthusiastic engineering student with an interest in cybersecurity and software development. Quick learner with basic knowledge of Java and computer networks. Passionate about improving technical skills through workshops, internships, and projects. Looking for opportunities to gain experience and grow in the IT field.

EDUCATION

B.E. Computer Science and Engineering (Cyber Security), 2023 – 2027
JJ College of Engineering and Technology, Trichy
• CGPA: 8.12

Higher Secondary (12th), Chellamal Matriculation Higher Secondary School
• 76%

Secondary (10th), Vasavi Vidhyalaya Matriculation School
• 75%

PROJECTS

AI-Based Crop Recommendation System

- Developed a machine learning model to suggest suitable crops based on soil and environmental conditions.

Real-Time Log Monitoring & Threat Detection Web Application

- Built a web-based system to monitor logs and detect suspicious activities in real time.

IoT-Based Temperature Monitoring System

- Developed a system using sensors to monitor temperature data.

TECHNICAL SKILLS

Programming

- Python(Basic)
- Java(Basic)

Course

- Ethical Hacking

Cybersecurity Tools

- Nmap
- Wireshark
- Metasploit (Basic)
- Burp Suite

Other

Linux Basics

INTERNSHIPS & WORKSHOPS

Cybersecurity Internship, DLK Technologies Chennai
• Gained hands-on exposure to cybersecurity practices and tools.

Workshop: JavaCraft, Franss Tech Pvt Ltd Chennai
• Learned Java development concepts and practical implementation.

Application Penetration Testing

- Covered fundamentals to exploitation techniques in web application security.

HACKATHONS

Advanced 3D Image Processing for Medical Field

AI-Based Crop Recommendation for Farmers

CONFERENCES

Blockchain for Secure Transaction, Indra Ganesan College, Trichy Trichy
